

Riverside Parent Support Group For Struggling Readers

Does your child exhibit slow, choppy, inaccurate reading?

Other Common Struggles:

- Difficulty reading words in isolation
- Delay in learning sequencing tasks (shoe tying, telling time)
- Great difficulty with spelling
- Trouble memorizing alphabet and math facts
- Left-right confusions
- Excellent verbal skills, poor written skills

More than 1 in 10 children in the US struggle with dyslexia or other language-based learning differences.

Without appropriate intervention, they will have a higher probability of not completing high school. Their dreams will be dashed, and opportunities diminished. It doesn't have to be this way.

OUR SUPPORT GROUP

Enables parents to come together to provide support, encouragement, and share challenges as well as successes of raising a child with dyslexia, processing or learning differences.

The group is parent moderated and free. Children welcome.
